

EARTHWEB Education

A+ Certification Program

Technicians with A+ Certification are in great demand — and EarthWeb Education has a unique A+ Certification program that will fill your classrooms and boost your revenues!

EarthWeb Education has developed a top-notch A+ Certification curriculum and enhanced it with our proprietary SupportSource® knowledgebase. This is the same high-quality support database used by professional technicians. Your students will be able to cross-reference their A+ courseware with SupportSource and get fast answers to a wide range of technical questions. These two teaching tools combine to deliver an interactive learning system that is dynamic, relevant, and unique in the industry.

Why A+ Certification?

CompTIA's A+ Certification is the world's leading vendor-neutral certification program, with more than 150,000 A+ graduates worldwide. The IT industry recognizes the value of this certification and looks for a steady stream of A+ technicians... and students look for training centers that can give them those high-quality technical skills.

Why EarthWeb's A+ Certification Program?

You'll find that the EarthWeb's turnkey A+ Certification program integrates easily with your current offerings and brings in new students — increasing your revenues. Whether your center is for-profit or non-profit, the EarthWeb A+ Certification program lets you offer a training experience that is in high demand with today's students and businesses.
