## **MCSE IT Training Solutions**

Want to capture a bigger chunk of the fast-growing IT certification market? EarthWeb Education has just what you need — the MCSE IT Training Solution. It's a fresh approach that bundles courseware and electronic reference tools into one comprehensive package. Plus, EarthWeb's MCSE program is customizable, with built-in distance learning features and private labeling capabilities that will expand your options and make you stand out from the crowd.

EarthWeb Education's top-notch MCSE courseware also includes two special tools that benefit instructors and students alike: SupportSource®, the premier electronic reference library for support pros, and ITKnowledge<sup>sm</sup>, the world's largest online library of technical books. Simply put, these superb training tools are unmatched in the industry.
