

Breeze Through A.M. Best Rating Surveys and Risk-based Capital Reports!

It's here! — Risk & Sensitivity Analysis for SDIM

Would you like to enhance your SDIM system with powerful risk analysis capabilities, including duration and convexity analysis? Or do you wish it were easier to generate the data needed for vital reports like these...?

- A.M. Best Rating Surveys
- NAIC Risk-based Capital Reports
- Quarterly Board Reviews
- Portfolio Manager Reviews

If so, you'll want to learn more about the new Risk & Sensitivity Analysis module for SDIM (RSA for SDIM), from SunGard Insurance Systems. It's a real problem solver...

The Problem

It's definitely a dilemma — A.M. Best ratings are vital to your business but providing the data for ratings can be very time-consuming. And the A.M. Best Rating Surveys are becoming more and more complex every year. Yet anything less than a full and accurate response may delay and/or lower your rating. How can you provide accurate survey data without increasing your workload?

The Solution

The new RSA for SDIM module enhances the power of your SDIM system in several ways:

- ✓ It expands your overall Custom Reports capabilities and provides you with new templates for risk-based capital reporting.
- ✓ It gives you access to analytical fields in the system, including Issuer, Market Yield, Duration, Modified Duration, and Convexity.
- ✓ It performs price sensitivity analyses and easily generates the investment data required by A.M. Best, the NAIC, or your own management.

The Quick Facts

Through 3/29/96, the RSA for SDIM module is \$995, including the first year's maintenance.

RSA for SDIM installs in a few minutes and adds system-wide capabilities you'll use every day. It's very simple to use, but training classes or price sensitivity analytical services are also available.

Take the Next Step

- YES, I want to order RSA for SDIM for \$995.** Please contact me first; or Ship now and bill me.*
- I'd like more information on the RSA for SDIM module, SunGard's price sensitivity analytical services, or seminars on risk-based capital.** For rush information, contact Ed McKenna or Bob Levine at (303) 369-9700.
